**WHAT?**
An all expenses paid research career-advancing opportunity sponsored by NHLBI.

Seven Summer Institutes with mentored research training programs address difficulties experienced by junior investigators in establishing independent research programs and in negotiating academic ranks.

Desired outcome is to improve recruitment and retention of faculty from disabled, disadvantaged or underrepresented groups in heart, lung, blood, and sleep studies.

Training Includes:
- Didactic courses
- Grant writing and grantsmanship courses
- Special topic conferences and lab skills
- Mentoring networks and long-term research collaborations

**WHO?**
U.S. citizen or permanent resident who is a junior faculty, research scientist or a transitioning post-doctorate trainee from a minority group that is underrepresented in the biomedical or health sciences.

**WHY?**
To broaden the demographic profile of medical researchers by training junior scientists from diverse backgrounds.

---

**How to Apply**

2. Upon request, complete Full Application:

**Full Application Includes**
- Letter of support from Department Chair allowing trainee to fully participate in the program, and to
  - Devote 5% protected effort throughout the program
  - Dedicate 33% effort during the summer months
  - Have access to institutional resources for preparing grant applications
- A statement of research interests, Curriculum Vitae and Biosketch
- Complete Pre-Application and Application
- Letters of Recommendation from Department Chair and Mentor or Colleague

---

**All Expenses Paid**
- Choose from 7 dynamic Summer Institute programs offering career-advancing opportunities for junior faculty and research scientists
- Training will facilitate developing
  - Research Skills
  - Grant Writing Skills
  - Long-Term Mentoring Networks and Collaborations
- Attend Institute for 2 Summers
- Attend Annual Workshop and Conference
